

TRANSPARENCY AND LOBBYING ACTIVITIES STATEMENT

Sammontana Italia S.p.A. is committed to operating with the utmost transparency and responsibility, including in relation to institutional and decision-making processes that may affect its sector of activity. We recognise the importance of engaging with public decision-makers and contributing constructively to discussions on matters of collective, industrial, and sector-specific interest.

Our objectives:

To promote the sustainable development of our sector by contributing to the definition of regulations that reflect the real needs of the market, our industry, and consumers.

To support initiatives aimed at improving the food industry and the sector as a whole, strengthening it in both domestic and international markets.

To share our expertise and perspective in order to inform policymakers on technical, economic, and social issues.

To encourage open and constructive dialogue, based on the sharing of accurate data and information.

Our institutional relations and lobbying activities:

Our activities are conducted in compliance with applicable laws and relevant codes of ethics.

We are committed to maintaining regular and transparent dialogue with institutions and public bodies.

We rely on internal professionals and, where necessary, authorised external consultants to represent our interests.

Commitment to transparency:

We closely monitor legislative and regulatory developments affecting our sector, in order to contribute to a fair and efficient regulatory framework.

We adopt the highest ethical standards in our interactions with public decision-makers, avoiding any form of undue influence.

We do not fund political campaigns, political parties, or election campaigns.

Our commitment:

Sammontana Italia S.p.A. believes that transparent and constructive dialogue between businesses, institutions, and civil society is essential for the country's progress and for sustainable growth.
